

A mess is gonna come

Pretty little things traveling, coming from the far lands
Hidden on a plane on a train no time to fail
Scary little things announcing summer in the badlands
It's been a long way, it's been a long way home
Many many hopes in the hold coming from the far lands
Keep your lips sealed close the wings no time to breath
Ugly little thing stop moving, time is gonna come
It's been a long way it's been a long way home

The mess is gonna come
Fascinating mess is gonna come
And I'm watching mess is gonna come
Mesmerizing mess is gonna come
We'll celebrate until we go to the ditch

Very hot wind travelling, coming from the far lands
Sand from the desert, falling on the city
Tiny black seed announcing tides in the forest
It's been a long way, it's been a long way home

The mess is gonna come...

Watchin all around me, I can see the mess
Continents are moving, I can see the mess
A tide in the forest, jellyfishes all around me
Even in the big mess I've still got you under my skin
