

## The lion

Come to see the lion in the cage  
I keep counting till it finds you  
Here comes the lion in the cage  
I keep counting till it bites you  
And I've been taming a blue jay  
Training it to keep you looking in the mirror  
And I've been taming a blue jay  
Training it to teach you « don't fear fire » and I say

I'm gonna change, do you do you wanna change  
I'm gonna change, do you do you wanna change

Be my lion in the cage  
I'm still trying to tame you  
This is all in your head  
And I've been taming a blue jay  
Training it to keep you looking in mirrors  
And I've been taming a blue jay  
Training it to teach you « don't fear fire » and I say

I'm gonna change...

I've been taming all sorts of animals  
But no one close to you
